Subject: Notification for Coca-Cola Foundation Cash Aid

Dear Sir/Madam,

This is to notify you that you have been chosen by the Board of trustees of the Coca-Cola Foundation based in the U.S.A, as one of the recipients for 2010 Cash Aid for your own personal, educational and business development.

Coca-Cola Foundation was developed in 1936 by the Multi-Million groups, which was conceived with the objective of Humanitarian Aid, Human Growth, poverty eradication, Education and Community development.

The United Nations (UN) and the European Union (EU), is donating Sixty five Million Great Britain Pounds, towards the Coca-Cola Foundation anniversary as specific cash aid to 260 international recipients worldwide in different categories for business, educational and personal development, and at least 30% to be used by each for the development of his/her community.

In line with the 74th end of year program, the United Nation and Coca-Cola Foundation has established and launched a satellite foundation in Africa and Asia and wishes to use this medium to introduce Coca-Cola Foundation Africa and Asia to the world.

The Coca-Cola product purchase receipts were retrieved from kiosk's and shopping malls, and , you were selected among the recipients to receive the sum of GBP 250,000.00 (Two Hundred and fifty- Thousand Great Britain Pounds) as cash aid from the donations of the (UN) and the (EU) in accordance with the enabling act of Parliament.

Kindly note that you are not the only beneficiary in your country and your country is not the only country that is benefiting from this donation, as recipients have been chosen from countries that are part of the United Nations and the European Union. The idea of this cash aid is that within ten years from now, there will be notable richness among many unusual people around the world.

Coca-Cola Foundation, is one of the numerous bodies involved in the fight against global economic crisis, in line with this, we resolved to empower only recipients with laudable credentials, Skills and experience in leading/management so as to ensure adequate utilization of the cash aid, and also to ensure that beneficiaries will invest in organizations that will in turn provide job opportunities for themselves, and their community at large.

This will empower so many people, and afford them the opportunity to get their lives to a stage where they had always wanted. Kindly note that you will only be chosen to receive the cash aid once, which means that subsequent yearly donation will not get to you again, so it's your chance to spend wisely on something that will create a long lasting wealth to you and your family, and members of your community.
