

# Themis Sync 2010/11/16

## Contracts (Palantir/HBGary/Berico)

- Current status
  - Aaron already submitted back and executed TA with HBGary.
  - Once Berico has Palantir TA, will submit proposal to John. Then H&W will write and return a contract.
- Berico/H&W NDA still outstanding - probably COB today. Palantir will reinforce urgency with John Woods/H&W.
- Palantir/Berico TA
  - Sean Stenstrom (Palantir) has action, will return to Berico by COB tomorrow.

## System (Palantir)

- Hardware status - hardware is g2g, system is installed, Oracle is active.
- Install status - in progress, Eli has action
- Hardware is dedicated - hostname will be [themis.paas.palantirtech.com](http://themis.paas.palantirtech.com) - need to check on port configuration
- Once system is up, will distribute admin and account passwords to all.

## Resources (Palantir/HBGary/Berico)

- Palantir - Ryan, Eli, Matt
- Berico - Pat, Sam, Amanda, Josh Gearheart.
  - Pat leaving for AFG on Thursday.
- HBGary - Aaron, Brandon Colston potentially.
- We should set up Skype chat room for coordination.
- Berico and HBGary will physically colocate for initial surge.
- Will set up mailing list (Palantir)

## Data

- Format - May have very simple SQL data, some unstructured documents, maybe some Excel spreadsheets – this is biggest unknown.
- Scale - 3 to 4 GB max
- HBGary collections

## Ontology

- Will start with stripped-down version of cyber ontology and expand out.
- Palantir can coordinate changes to this short-term and then hand off.

## Deliverables

- 23 November meeting
  - Who is at this meeting? Richard presenting to the client. Maybe push to have a team representative there, or a demo video.
  - What are they expecting to see? Is there an existing story to tell?
    - Brief INTSUM format.
    - One or more network diagrams.
    - A few target folders on our top ten persons or groups of interest
    - This should be a non-salesy pitch for the full capability we're offering - USCC sees tons of intel reports, this has to be something different.
  - Must convince client that we are the A-Team with the magic box?
  - Should sync with John Woods prior to meeting - he likes to be pre-briefed on all major engagements.
